

Warranty Statement

Pelco Component Technologies manufactured products are warranted to be free from defects in material and workmanship under normal use and service within one year from date of manufacture. The buyer must give notice of defect within the one-year period and return the product intact and prepay transportation charges.

The obligation of Pelco Component Technologies under this warranty is limited to repair or replacement at the factory. This warranty shall not apply to any other product which is repaired or altered outside of the Pelco facility or which has been subject to misuse, negligence, accident, tampering, incorrect wiring by others or improper installation.

This warranty is expressly in lieu of any other warranties, expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose. The remedy provided for under the terms of the warranty is exclusive remedy of the purchaser.

Under no circumstances will Pelco Component Technologies be responsible for other direct, indirect, or consequential damages.

Pelco Component Technologies reserves the right to make changes without further notice to any product herein. Pelco Component Technologies makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does Pelco Component Technologies assume any liability arising out of the application or use of any product or circuit, and specifically disclaim any and all liability, including, without limitation, consequential or incidental damages. "Typical" parameters which may be provided in Pelco Component Technologies data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typical", should be validated for each customer's application by customer's technical experts. Pelco Component Technologies are not designed, intended, or authorized for use as components in systems applications intended to support or sustain life, or for any other application in which the failure or the Pelco Component Technologies product could create a situation where personal injury or death may occur. Should the customer purchase or use Pelco Component Technologies products for any such unintended or unauthorized application, the customer does so at its own risk and the customer shall indemnify and hold Pelco Component Technologies and its officers, employees, subsidiaries, affiliates and distribution harmless against all claims, costs, damages, and expenses and reasonable attorney fees arising out of direct or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such a claim alleges Pelco Component Technologies was negligent regarding the design or manufacture of its product.
